MADRID, January 4.—Two hundred and fourteen persons lost their lives when the Spanish steamer Santa Isabel was wrecked near Villagarcia Saturday night, says a telegram received here from the governor of Pontevedra. Fifty-six persons were saved, but many of them were injured. Captain Richeldi, the captain of the vessel, was severely hurt and it is not expected he will recover. Many bodies have been washed ashore and in several cases whole families were drowned. Among the saved was an infant three years old, whose parents are believed to be dead.

Latest dispatches from Cadiz state the ship was driven on the rocks during a storm and the large number of deaths is attributed to the fact that the passengers had been confined to their cabins because of the violence of the tempest, many of them being asleep. The majority of those rescued from the steamer were unable to speak on being landed, owing to their frightful experiences during the hours of clinging to the wreckage in the terrific storm and cold.

Meager details indicated that the disaster occurred at 1:45 o'clock Sunday morning, when virtually every one on board was in bed.

WAR FINANCE CORPORATION BILL REPASSED

WASHINGTON, D. C., January 4.—The resolution reviving the war finance corporation became a law today with its re-approval by the house over President Wilson's veto. The senate overrode the veto yesterday.

The vote in the house was 250 to 66, with three voting present, or 37 more than the required two-thirds majority. The vote was taken without debate, after Representative Mondell, the Republican leader, had stated that since all members realized that the president had raised no question it seemed wise to proceed to vote without discussion.

Officials of the war finance corporation said today the corporation would be revived immediately, but that necessarily some time must elapse before the actual making of new loans would begin. Some of them thought the time would be two months.

Funds for making the loans must be raised by a bond issue, it was stated, and other preliminary matters must be cleared up. While the corporation has a book balance with the treasury of about \$755,000,000, officials said the use of this money for loan purposes would necessitate the issuance of treasury bonds.

Movies Showing Criminals Barred

CHICAGO, January 4.—Motion pictures portraying criminals at work, have been barred in Chicago, it became known today. Chief of Police Fitzmorris announced that three weeks ago he had issued orders to movie theaters not to issue permits for any photo play that showed a crime committed, even though the end of the picture might show the criminal in a prison cell.

"It will make no difference whether the criminal shown is a hero or a villain," said the chief. "Even the showing of a policeman disguised as a burglar, is tabooed."

The order became public when three youthful robbers, who were sentenced to the state reformatory at Pontiac, said their crimes had been inspired by a "crook" moving picture.

DISARMAMENT MAY BE BASIS FOR HARDING'S LEAGUE ASSOCIATION

BY DAVID LAWRENCE

(Copyright, 1921, by Times Pub. Co.)
WASHINGTON, Jan. 3.—Disarmament may yet be the basis for the new association of nations planned by the next administration. President Wilson did not avail himself of the privilege given him by the naval act of 1916 authorizing the call of a conference of nations to discuss the question of a reduction of armaments, but there are indications that President Harding will call such a conference.

Members of Congress who have been at Marion reflect Senator Harding's views on naval armament as somewhat dissimilar from the attitude of those in Congress who want to enter into a naval agreement with Japan and Britain. Mr. Harding is represented as anxious to approach the whole question in an effort to get a general understanding with all naval building nations, and he is further said to be unwilling to see America cut down the size of her navy until a definite agreement with the other powers has been reached.

America Must Be Prepared
Perhaps the insistence by the Wilson administration on completing the big building program authorized in 1916 has been widely misunderstood as a sudden turn to navalism and self-defense. Foreign critics have caricatured America as a second Germany. But

Harding Plans Deeper Interest In South Americans By U. S.

BY ROBERT T. SMALL

(Copyright, 1921, by Times Pub. Co.)
ARLINGTON, O., Jan. 3.—In his discussion of international affairs with a number of visitors, President-elect Harding has indicated very plainly that he will take a deeper interest in Central and South American affairs than any President in recent years. When it comes time to take up diplomatic appointments, and that time it should be stated, still is far in the distance, Senator Harding will endeavor to pick the very best available men for the posts among the American Republics.

As usual, it is expected that the greatest pressure will be brought to bear by those who represent the United States at the court of St. James in London, at Paris, or Rome, or Berlin. In the Harding administration there is every reason to believe that the posts in such capitals as Rio, Buenos Aires, Montevideo and Santiago are to have the very first consideration.

Wants Relations Strengthened
Senator Harding is desirous of seeing the relations between the United States and her sister Republics of this hemisphere greatly strengthened. During his recent trip to Panama he made this very plain. The policy he has in mind is not the result of that.

RUSSIAN REDS PLAN NEW REIGN OF TERROR ABOARD

WASHINGTON, D. C., January 4.—A new policy of terror abroad, especially in nearby countries, has been decided by the Russian soviet, according to official advisers from Moscow received today by the government.

Nikolai Lenin is quoted by the advisers as saying in a proclamation to the commune committee of Europe:

"It is absolutely indispensable to keep the bourgeoisie enemy busy with internal trouble in order that they cannot injure soviet Russia. Great strikes should be organized throughout the world. Agitation for the establishment of commercial relations with Russia should be increased. In order to fight famine and attack capitalism solidly throughout the universe, these things should be done."

Lenin is quoted further as saying that other nations plan to fight soviet Russia by the use of spies seeking to enter Russia with the apparent purpose of organizing revolts against the soviet.

OHIO SOLONS PLAN STEPS TO CHECK CRIME WAVE

COLUMBUS, O., January 4.—The crime wave sweeping over the country is due to receive early consideration at the hands of the Ohio legislature, it was said today. Many members are discussing measures to check it.

Representative Garrett, Carroll county, a retired minister, said today he was preparing bills which would abolish the indeterminate sentence law, stop judges from suspending sentences and abolish the state board of clemency. He said many of the auto bandits and others engaged in crime were ex-convicts who had been pardoned or paroled.

Anti-Saloon League forces and law enforcement agencies are preparing for a drive on the legislature for a law and appropriations which would create 20 state inspectors to secure better enforcement of the prohibition laws.

While the proposition is said to be meeting with favor among the majority of the members, there are said to be many who believe the organization requested is too large and in the interest of economy want a smaller organization and will insist upon fees being fixed which will furnish funds to finance the prohibition inspection work.

KNIVES DRAWN IN DISORDER DUE TO LOW PRICES OFFERED

Sales Stopped By Growers; Refuse "To Give Product Away"

MAYSVILLE, KY., January 4.—Tobacco growers stopped the tobacco sales at Maysville warehouses this morning about an hour after the opening sales, the reason given being that "they refuse to give their tobacco away."

The prices ran from a half cent to twenty cents. General disorder prevailed. Growers from six counties, Mason, Lewis, Bracken and Fleming, Kentucky, and Brown and Adams counties, Ohio, crowded around the buyers cursing and yelling and pushing buyers back. The first basket of 115 pounds was purchased by a tobacco representative of a large tobacco company, for ten cents a pound. Tobacco that brought from 25 to 35 cents last year sold for three and five cents today. A mass meeting of tobacco growers has been called for 1:30 o'clock today. There are 3,500 to 4,000 tobacco growers from surrounding counties in Maysville and feeling is running high.

COVINGTON, KY., January 4.—Three hundred tobacco growers of Kenton, and adjacent counties stopped the auction sale of loose leaf tobacco today at the Kenton loose leaf tobacco warehouse, because, they declared, the prices were too low. They said they were receiving only from 1 to 35 cents a pound this year as against from 75 cents to \$1 last year. Sheriff Northcutt and several deputies went to the scene to preserve order.

CARLISLE, KY., January 4.—Following impassioned speeches by growers and threats against buyers during which knives were drawn, the Burley tobacco market here was closed shortly after the opening today. Cooler heads among the hundreds of persons attending the sales prevented trouble. Growers declared that to accept the prices offered by buyers meant bankruptcy.

Shortly after the market here was closed, it was reported that a crowd of several hundred farmers had started from this place for Paris, 20 miles distant, with the intention of forcing the closing of the Bourbon county market there.

LEXINGTON, KY., January 4.—General closing down of the larger loose leaf tobacco markets in the Burley tobacco district of Kentucky, due to low prices offered by buyers, appeared immediately shortly after noon today. Reports from Mount Sterling, Maysville, Winchester, Carlisle and a number of other points said that the example of the Lexington market had been followed and the warehouses closed.

No indication as to when the markets would open was given, the reports said. No trouble was reported from any place except Carlisle, where threats were made by growers against buyers and knives were drawn.

The markets at Danville and Paris, which opened today, were still reported as in operation, although reports from Carlisle said that a crowd of several hundred Nicholas county farmers were on their way to Paris to force the closing of the market there.

All sales on the Lexington loose leaf tobacco market were called off for the day at 11 o'clock this morning. Low prices offered by buyers for the large tobacco manufacturing companies, was the cause assigned.

Prices offered ranged from \$1 per 100 pounds to \$30. There were very few sales, farmers rejecting virtually all of the bids.

Tattersall's and the New Fayette warehouses, two of the largest in the city, were the first to call off their sales. Tattersall's called off their sale with the announcement that "the farmers would not and could not accept the prices being offered by the buyers."

The crowd of several hundred persons attending this sale, then went to the New Fayette warehouse, crying, "Stop it!" The management of the New Fayette, after a conference with the buyers, suspended operations and the crowd, augmented by the persons attending this latter sale, started to make the rounds of the warehouses with the avowed intention of stopping all sales. At 11 o'clock the Lexington Tobacco Warehouse Association announced suspension of all sales for today.

As the man left the church, an usher shook hands with him and asked him to return. He promised to do so.

Robs Choir Then Attends Church

CHICAGO, January 4.—Parishioners of the Episcopal church at Winnetka, a fashionable northshore suburb, are mystified as to the identity of the elderly gentleman who occupied a front pew Sunday morning after he had visited the choir room and secured all the valuables from the overcares of the choir members.

Missing articles included the pastor's monogrammed silver cigarette case, a derby hat, and sums in cash ran from car fare to ten dollars.

The thief was first espied by Mrs. Archibald Shaw, the choir mother, who saw him in the choir clock room. He explained that he was attending the services and lost his way. Later he was noticed among the congregation.

RAILROADS SPENT \$349,500,000 FOR EQUIPMENT IN 1920

WASHINGTON, D. C., January 4.—During the year 1920, the railroads of the country spent \$349,500,000 for new equipment, according to figures announced today by Robert S. Binkard, of the Association of Railway Executives. The largest item of expenditure was \$125,000,000 for 15,000 freight cars and the railroads, Mr. Binkard said, now are trying to make similar arrangements to secure an additional total of 60,000 cars. Purchase of 15,000 refrigerator cars at a cost of \$67,500,000 and 1500 new locomotives at a cost of \$165,000,000 is planned, he said. In addition to equipment contracted for by the railroads, the Pullman Company, Mr. Binkard said, is building 500 new cars, none having been built during federal control.

MASONS TO SPEND \$400,000 ON NEW TEMPLE ON SITE OF P. E. SELBY HOME

Four hundred thousand dollars is the amount the Masons intend to expend in buying the Pearl E. Selby home on Gallia street and erecting a modern lodge home, one that will meet every need of the growing organization. The decision to purchase the Selby property for a home site was reached Monday night at the regular meeting of Aurora Lodge No. 48, F. & A. M., the question being voted upon favorably by every one of the large number present. The site selected is considered a most ideal one.

Work on the new Masonic home is expected to start early next year, although there is some possibility the work may be gotten underway late this fall.

When the members voted last night to buy the Pearl Selby property as the site for a Masonic temple, it ended a question that has been in the minds of local Masons for several years. It was readily agreed that a new and larger home was necessary, but there was considerable difficulty in reaching a decision as to just where the home should be located.

Several years ago the Masons took an option on the lot at the southeast corner of Gay and Seventh streets and later bought the Wiggins property on the south side of Gallia street. Just east of Station street. The committee in charge discussed plans for this site for some time and later gave up the matter of building on this property, deciding that the home should be on higher ground.

The Wiggins lot has a frontage of 117 feet on Gallia street, while the Selby property measures only 100 feet, but the Selby lot is 400 feet deep, being much deeper than the Wiggins lot.

After members had advanced the idea that probably the Selby property could be secured, the lodge approached Mr. Selby and made him an offer, which was accepted. The lodge pays \$40,000 for the Selby property, the large home being included.

It is the plan of the lodge to move the home to the rear of the lot, where it may be converted into bachelor quarters, at a very low cost.

No plan has been worked out for the issuance of stock or for taking subscriptions from members, this work to be carefully looked after by the finance committee, of which George E. Carlyle is chairman. Mr. W. B. Anderson is chairman of the general building committee.

The Masonic home will be probably a three story structure, modern in every detail. The various local Masonic organizations are: Aurora

Lodge No. 48 F. & A. M., Mt. Vernon No. 23, R. A. M., Solomon Council No. 79, P. E. M., Calvary Commandery No. 33, K. T., Yealiger Grotto and Portsmouth Chapter, Eastern Star. Each of these organizations is expanding rapidly and new quarters are needed. The new home will be the very latest in architecture. It will contain besides the spacious lodge rooms, club rooms, billiard rooms, bowling alleys, reading rooms and a swimming pool.

A prospectus had been drawn for a lodge home on the south side of Gallia street, but these plans will have to be greatly altered to fit the new site. This new site is one of two considered on the north side of Gallia, the other being further east.

The location of the new home is just west of the Portsmouth High School, and when the new temple is completed, Gallia street will have another beautiful building that will add much to the civic beauty of the city.

The Masons have already received an offer for the old Wiggins lot, and it is probable that this property may be disposed of in a very few weeks.

The property can be sold without a loss, the lodge to realize the money they paid for it and interest on the investment.

Among the Masons commenting on the new site were:

John Jones—"The site is the one we have been looking for. The new home will add to the attractiveness of Gallia street. The new home seatment will now grow by the proverbial leaps and bounds."

Albert Martin—"The best feature of the site is its magnificent surroundings and the fact that it is high and dry. It is a bully good location from all angles."

George D. Selby—"I am really too close to form an opinion, but it is the proper site for the new Masonic home. I am reserving my property just west of it for just such a magnificent building or a civic structure of some kind."

John A. Ives—"I think the site is ideal from every standpoint and could not be improved upon. Actual work on the long talked of new home is now in sight and the Masons will soon have one of the finest homes in Ohio."

L. W. Baker—"I have lived on both sides of Gallia street, and I know the Masonic home should be built on the north side. The location is wonderful."

Edgar F. Draper—"The proper site at last has been secured. Every Mason has reason to rejoice over the selection. Now for the magnificent new home."

Cigar Nomenclature.

The nomenclature of the cigar trade is one of the very interesting phases of democracy. No gentleman intent upon building up a market for a 10-cent cigar ever named it for a statesman. He complimented, instead, an actor, a philanthropist, a race horse, a hypothetical Indian incident or a supposition of Spanish grandeur. To have named a 10-cent cigar for a statesman would have been to "queer" both the cigar and its involuntary patron. The people would not have stood for that sort of thing. It would have presumed a certain superiority which they would have rebuffed both at the cigar stand and at the polls.—Philadelphia Public Ledger's "On Second Thought."

WHEN ILL HEALTH OR HARD TIMES HIT YOU, DON'T LIE DOWN

It is the man who can "come-back" that is the man worth while

"Comeback! I'll Help You!"

DON'T TRY TO "FOOL" YOURSELF INTO THINKING YOU ARE A KEEN 100% IRON MAN WHEN YOU HAVE REASON TO SUSPECT THAT YOU ARE NOT.

Iron starvation of your blood may be the cause of all your troubles. How to tell is explained in the accompanying article.

WITHOUT IRON YOUR BLOOD ALSO LOSES ITS POWER TO CHANGE FOOD INTO LIVING CELLS AND TISSUE AND nothing you eat does you the good amount of food you do not get the full strength out of it. In fact sometimes the more you eat the more you starve, as your digestive organs are unable to handle much food when your blood lacks iron and you often think you have stomach trouble, when it isn't that at all. Simply eat less and take iron. There are 10,000,000,000,000 red blood corpuscles in your blood and each one must have iron.

DON'T TRY TO "FOOL" YOURSELF INTO THINKING YOU ARE A MAN OF "BLOOD" AND "IRON" WHEN YOU HAVE GOOD REASON TO SUSPECT YOU ARE NOT. THE FACT THAT YOU HAVE TAKEN BLOOD-CORPUSCLES AND SEE WHETHER YOU ARE A 100% IRON MAN. A 100% IRON MAN DOES NOT POSE NUXATED IRON WILL NOT HELP YOU.—Try it on our guarantee below.

It is said that about ninety per cent of men fail between the ages of 35 and 50 and very few ever "COME BACK."

A good reason for many of these failures is plain. As man approaches middle age THE IRON IN HIS BLOOD IS APT TO THIN OUT and he then lacks the necessary iron in his body to give him the force, strength and vitality; the "IRON-WILL" and "iron determination" to carry him on to success. In his own mind HE ALWAYS THINKS HE IS GOING TO "COME BACK," but he is like a crippled deer that rises up on its four legs after being shot, only to fall back again.

EVERY DOCTOR knows the tremendous power of an IRON WILL to pull a patient through a critical illness. Without an iron will, it often seems that nothing can kill you. Without it, a patient sometimes speedily collapses and dies from an apparently trivial cause.

Lack of iron in your blood not only undermines your health and robs you of your bodily and mental vigor but it weakens your WILL-POWER. Without iron ALL THE "FIGHT," "COURAGE" and "GO AHEAD" in you is taken out and you begin to think it is "all over"—there's nothing more for you in life.

NUXATED IRON ENRICHES THE BLOOD-GIVES YOU NEW STRENGTH AND ENERGY

FINDING IN FAVOR OF REITZ BROS.

Court of Appeals, in a written opinion received Monday in the suit of Charles C. Hurr against The Leichner & Jordan company, The Reitz Bros. company and others, which was submitted on the evidence, makes a finding in favor of The Reitz Bros. company and orders a decree for foreclosure entered and remanding the cause to the Common Pleas court for further proceedings.

This action was brought to foreclose a material-man's lien on real estate, the Reitz company having furnished material to The Portsmouth Contracting Company, now bankrupt, which was used in the construction of a cold storage plant for The Leichner & Jordan company in the East End. The court, however, found that the defendant company is entitled to a credit of \$250 on the amount claimed by The Reitz company in its first cause of action, leaving approximately \$3,700 due the Reitz company.

Attorneys Rabbon and Bannan represented the Reitz company and attorneys O. W. Newman and F. W. Mumfion the Leichner & Jordan company.

No Tips In China.

The Chinese are not accustomed to tipping the waiter. As a matter of fact the Chinese waiter is very modest in his price, and his patrons can obtain a haircut, a head shave, a face shave, and in addition have the shoulders and back massaged, all for less than five cents. The razor used by Chinese barbers is a triangular-shaped blade with straight handle, folding up as does the American straight razor. The blades are made from old rails or any other crude steel which has outlived its usefulness for other purposes.

The best results, whether bread, pies or cakes, secured from St. Nicholas Flour.

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Miss Dolly Wise—Kindly answer this question: A man having real estate, a part of which he inherited, having children of age by his first wife, no children by his second wife, can he sell the inherited property if the second wife refuses to sign the deed? Also would the children of his first wife have to sign the deed?

DOMESTIC TROUBLE.
The children are entitled to their mother's share of the estate, which is one-third of the property. You cannot sell their share, neither can you sell your share without your wife signing the deed. Would advise you to get an attorney to straighten things out.

Your Manners

IT IS CORRECT

For a gentleman to assist a lady when he sees that she is having difficulty in raising or lowering a window.

When obliged to accept the least eligible seat in a train to take it with good grace.

To be as courteous to fellow travelers and those who serve you as to your friends and servants at home.

For a mother traveling with children to whom some passenger has been attentive, to express the proper thanks.

When a gentleman has purchased a railway ticket for a lady she should pay him for it if the amount is more than one dollar.

IT IS NOT CORRECT

For a mother traveling with children to permit them to race up and down the aisle of the car.

To permit them to play at the drinking water faucet.

To permit them to climb into the seats of other passengers.

To permit them to indulge in a continuous feast of sweets.

For a traveler to offer sweets to children on the train, without first asking permission of the mother.

SOCIETY

Misses Madeline Rerave and Virginia Spencer of Fifth street, Linden Dowling and Ruth Patton of Franklin avenue, have returned to Western College, Oxford, after a visit with home-folk.

Meet me at Nye's fountain.

Dear Miss Wise—I read all of your letters every day and have seen lots of articles that I like to read. I would also like to have your picture. I am a man of 37 and want you to tell me what kind of day they make statues out of and where would I get some. I will look for your answer soon.

Dolly, I am not a very good writer, or spell, so let me know soon.

TIMES READER.
I haven't any pictures to give away. Statues are made of plaster Paris. Marble, bronze or wax. You can buy plaster Paris at a drug store or lumber office.

Dear Miss Wise—Will you please tell me what form of government the following countries have, and who is at the head of each: Austria, Hungary, Germany, Russia, Jugo-Slavia and Poland.

MRS. R. H.
Karl Selz is president of Austria, which is a republic; Friedrich Ebert is president of Germany; Russia is governed by a Soviet Cabinet with Lenin and Trotsky as its chief members; Jugo-Slavia is governed by Alexander King of King Peter (regent); Poland is a republic, but I can't remember the name of its leader.

Dear Dolly—I am coming to you for a little advice. I am 20 years old and have been going with a boy for two years. He always writes such nice letters like he cares so much for me. He has been to see me twice and has wanted to come again and everything I tell him he can come he disappoints me. Now Dolly, do you really think he cares for me? And would you give me any sense? I want him to get down to get here and you come fun to make him. Everybody they just laugh and laugh at me all day, and I can't get it any more yet. You are Sherman, too, so then for why do you laugh?

BLUE EYES.
He doesn't act like he cares much about you. If you enjoy his letters, and don't mind being disappointed, you might keep on writing to him.

FROM ONE OF YOUR ADMIRERS.
Your questions cannot be answered in this column. Most of them have been published in the Noon Extra. If you will call me up and give me your name and address I will mail you answers to all your questions.

BILLY WILKER

Myriads upon myriads of electric lights flooded the hall where Billy Wilker found himself after the terrible tussling journey through the dark passage. Wilker upon wonder was revealed and everywhere were the queerest people. Some were giants, others were dwarfs. Part were exceedingly tall, with neck stretching out like the giraffe at the zoo, hunk arms and dangly hands, faces narrow, chin pointed noses long enough to pry into the business of the whole world. Some, on the other hand, were only two feet tall, but, strange to relate, they were as fat as the men in the room.

"He's six feet one way, two feet the other," said Billy.

"An' his coat won't go half way round," said Billy.

"Judge, I call 'em," decided Billy with a wag of his head, turning around to take a complete inventory of the room and its occupants. He when he discovered his German, who immediately behind him, in excited conversation with another creature exactly like her.

Violently she gesticulated with her large, green-covered umbrella, and just as violently did her counterpart wave her rubberstick and her head.

"You look like me for, eh?" said Billy, looking at the German. "I want to get down to get here and you come fun to make him. Everybody they just laugh and laugh at me all day, and I can't get it any more yet. You are Sherman, too, so then for why do you laugh?"

GWENDAN'S DANCE

The fun was fast and furious and pearls of joyful care-free laughter penetrated from little Tim's studio window to the farthest corners of ashington square.

"One and all turned to and helped get up a supper. It was ready by the time that all were hungry enough to want to eat, and music flowed every minute.

Several of Tim's girl friends did some Greek dances. They went into an adjoining room, first, and looked their slim, young bodies into several of Tim's shorts, caught themselves round the waist with string, and removed their shoes and stockings.

Then they appeared, and delighted the crowd for nearly an hour with their own interpretations of any and all music proceeding from the good old music box.

Gwendan watched and enjoyed every minute of the evening, despite her first feeling of revulsion to so much noise and festivity. Here at least one could be one's self, and laugh and be quiet, quite young and even foolish. Nay, the more foolish the better. So she sang and danced, and snickered with the rest of them, although the smoke still got into her eyes and made them smart. Baby, that she was!

After a heavy supper, and several glasses of excellent wine, that Tim himself had ordered and which succeeded in making her very light-hearted and somewhat giddy, she consented to an overwhelming demand that she improvise a dance for the crowd, there and then!

Ed Deboe, Bob Mathews and Russ Yinger spent New Year's and Sunday in Cincinnati. While there they saw the "Scandals of 1920."

At first she refused, for she was languid and tired, and just couldn't drag herself from the effects of that wine, but they would not take no for an answer.

Finally, tired, and really urged with in herself to get up and try out her own talents here amid this friendly audience, Gwendan ran into the next room, slipped into some spangled black gowns, she hurried off her shoes and stockings and, catching sight of a gleaming blue lapiz bangle, she slipped it over one slender ankle, then whirled into the studio again.

There was a gasp as she appeared! She was a transformed being, beautiful beyond words.

Gwendan turned on a sensuous Polish waltz, one of those ineffably sweet and languorous melodies that cause the senses to faint with delight. Then she danced like one possessed. She bowed and twirled and supplanted, and quivered with the very joy of her own body and love of the music. As she finished and sank quite exhausted to one knee, someone began pelting her with orchids. A roar of delight went up from fifty enthusiastic throats.

Gwendan sat down and smiled cheerily at them all, and asked for a glass of water.

"I'm almost lifted here! I should have carried her triumphantly round the room, then crowned her queen of the dance."

A gold of wine was hurried to the spot, and Gwendan, all excited, raised it to her lips, drained it, then dashed the goblet to the floor in truly royal manner.

(To be continued.)

In honor of her cousin, Miss Doris Cole, of Columbus, and Miss Beatrice Cole of Waverly, Miss Elsie Cole of Gallia street entertained Friday evening a few friends with an indoor winter-concert. World Wide Missionary Work Carried On By The Methodist Episcopal Churches

CHICAGO, January 4.—A picture of world wide missionary enterprises on a scale making history for the Methodist Episcopal church is presented in a report just made public here. The report summarizes first year expenditures and achievements under the Centenary fund recently raised by this church.

In the Centenary campaign more than 1,000,000 people contributed to the \$108,000,000 pledged. It is stated, The

circular prepared by the church's Committee on Conservation and Advance, entitled "What Centenary Money Is Doing," is designed as a report to donors. Broad expansion at home as well as abroad is noted. Among major features of this development during 1920 are mentioned the following:

Work is being done among foreign speaking people in the United States; 102 English speaking pastors, 282 for-

eign language pastors, 102 women workers and 141 other special workers. 225 foreign-language students are in training at colleges, universities and schools.

\$1,083,570.41 was spent to "continue work in and near military and naval stations; to help equip Methodist chaplains; to provide adequate ministry in urban districts, congested by the northward migration, and in great industrial centers developed by war industries; to provide community centers in rural neighborhoods increased as a result of the war; to promote Americanization, and to provide scholarships for Methodist boys whose educational training was interrupted when they went to fight for Uncle Sam."

Surveys by Methodist endeavor abroad, the report says that Centenary funds saved the whole Methodist Episcopal work in China and India from disaster imminent on the great reduction in value in purchasing power of the American dollar.

At Singapore \$80,000 was spent on the Anglo-Chinese school. Chinese in that city have contributed close to \$200,000.

Extensive projects have been laid out for Japan where the direct appropriation last year was \$104,714. The Korean appropriation was \$122,256. Twenty-six new missions were sent to Africa, marking an increase of 75 percent.

Physical relief extended to Europe and America ran into hundreds of thousands of dollars. France, Italy, Poland, Spain, Norway, Sweden, Denmark, the Philippines, Mexico, Central and South America and the Netherlands Indies received attention.

NEW RECORD IN FINES

An unusually large number of prosecutions for violations of the prohibition laws resulted in the hanging up of a new record in point of collection of fines and costs in Municipal court for December, which amounted to a total of \$3,851.25, according to a report completed Tuesday by Clerk Floyd

Shenk. Of the total amount collected \$2,300 goes to the city strong box; \$523 to the state and \$128.25 to the county.

The receipts from the same source for the year amounted to more than \$9,000 according to the figures made public.

Days Of Klondike Recalled By Fortune Made In "Black Diamonds" In Ohio Coal Fields

ATHENS, O., January 4.—It's a far cry from the Hocking Valley coal fields to the gold mines of the Klondike, and the black fuel is considerably less valuable than yellow-specked nuggets, but money was made almost as fast in the mining districts around here during and after the war, as in the heyday of the famous gold fields.

Most of the "easy" money was turned into pockets by astute speculators who sold coal without ever seeing it, or getting the slightest trace of its dirt on their hands. Some of the speculators were big operators, moneyed men to start with, others were clerks, draymen, and persons who worried about paying the rent and grocery bill each month.

It is said that a certain young drayman heard a lot of coal being sold over long distance telephone some months ago. He was in a Nelsonville hotel.

Incidentally, according to the hotel loungers, literally millions of dollars worth of coal had been sold over that same phone, without the seller ever seeing it. Selling coal seemed simple, the young drayman figured. He decided to forsake his dray. Operators at that time were selling coal to the highest bidder.

The drayman heard a certain address during the phone conversation. He learned where he could sell coal, so he got into communication with a small mine owner, bought a car of coal, went to the telephone and sold it, clearing \$254, without ever seeing the fuel.

The horse and dray went the next day, and the young man is declared to have cleaned up \$20,000 in the next four months. But he is back on the seat of his dray again; the easy money went the way it came.

An instance is told of a young man, whose father is popularly supposed to have made millions in coal here in the last few years, trying the selling game. He is said to have made \$10,000 a year.

Neighbors of a man working in a factory district here suddenly were surprised to see him take on all the airs and appurtenances of the new rich, according to the story told in the neighborhood. Automobiles and such things were necessities for the plodding householder.

Folks wondered where he got the money. The mystery was in a little coal mine up in the valley. He had put all his savings in it, and was drawing down a dividend check each week that would make a movie actor envious.

Today, however, scores of the little mines are being closed. They found they couldn't sell coal at a reasonable profit below \$4 a ton, so they quit. When speculators bid off their coal at \$7 and \$8 a ton and higher, it was easy selling, but then the market broke.

Scores of stories of men who transformed a little pluck and selling ability, with the aid of the "black diamonds" into thousands of dollars of easy money are heard from most every one in these mining districts—but the day is over now.

Growers' Auxiliary Prepared To Take Over Low Grades Of Tobacco In Kentucky Marts

LEXINGTON, KY., January 4.—Prepared to take over low grades of tobacco for which buyers for the manufacturers might offer such a low price that growers would reject the bids, representatives of the Kentucky Tobacco Marketing Co., today attended the tobacco sales in the local market. The company, an auxiliary of the Growers' Association, was incorporated here today.

Representatives of the company were to attend the sales at all other markets in the Kentucky district prepared to act in like capacity for growers there.

The average price of tobacco on the first day of the sales here was, according to growers, a disappointment. The figure \$20.40 per 100 pounds, was said to be below the cost of production and was \$25.00 per 100 pounds less than the average at the opening sales last year. Total sales yesterday were 412,200 pounds, while growers rejected bids for \$22,000 pounds.

No action looking to the reduction of the price of the 1921 crop or attempting to halt sales pending better offers for the tobacco will be taken, according to a statement issued last night by John W. Newman, president of the association, until it is seen what kind of prices are offered for tobacco on the smaller Kentucky markets. A few of these markets opened yesterday, but most of them will not be opened before Thursday. Buyers say most of the best tobacco will be sold by then.

The Cooperative Marketing Company, the stock of which is to be paid for in tobacco, will attempt to market the lower grades abroad. Foreign buyers are looking on the market here.

Those who have used St. Nicholas Flour will have none other.

Dandruff Surely Destroys The Hair

Girls—if you want plenty of thick, lustrous, glossy, silky hair, do by all means get rid of dandruff, for it will ruin your hair and ruin it if you don't. It doesn't do much good to try to brush it away. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when your hair is clean and when the scalp is wet with it in a very thin layer. In the morning, wash it off with the finger tips. If you don't get it all off, of your dandruff will be a new and three or four more applications will completely destroy it and entirely destroy every single strand of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

The Chillicothe News-Advertiser of last interest Monday said: Having his automobile with a motor cycle on the Columbus pike just north of Hopetown, Sunday afternoon, about 3 o'clock, turned out disastrously for A. D. Elwell of Portsmouth, with a party of two men and two women, for the automobile was wrecked when it crashed into a telephone pole. One of the women had her back injured, but medical treatment was not necessary.

Atwell's garage was called and the dilapidated machine was dragged to this city. That the occupants escaped serious injury is viewed as a miracle.

WEST VIRGINIA CAPITOL COMPLETELY DESTROYED

CHARLESTON, W. VA., Jan. 4.—The capitol building of West Virginia was completely destroyed by fire yesterday afternoon. One laborer was killed, a fireman seriously hurt and several other fire fighters injured when a section of the roof, under which they were standing, caved in. The spectacular nature of the fire was enhanced when much ammunition stored on the third floor of the building exploded.

Within four hours after the fire was discovered the capitol building containing the governor's office, state

departments, and "priceless records" was a mass of smoking ruins. State officials made no attempt to estimate the loss but they said that much of the property which no insurance was carried, could not be replaced and that it was impossible to estimate its value.

Some valuables were saved. The capitol building, erected in 1881 at a cost of more than \$400,000, is believed to have been the only brick capitol in the United States. State officials today said the building was valued at approximately \$1,250,000.

Volley Ball League

The Executive Committee of the Business Men's Volley Ball Association, met last night to even up the teams, and while they did very little to strengthen the weak teams, they did complete the organization of the teams for the coming season. The League is to be a twelve club league, as had been previously decided. The Selects formerly disbanded, and the Catbirds, with Ray Seby as Captain, were admitted in their place. President, Hardin appointed Harry Gilen, to confer with the old leaders of the Allies and to form a new team, to be the twelfth team, in the Association. Two games a week will be played by each team, two being played each day, one at the Wilhelmette Hall, and the other at the High school. The Secretary was instructed to draw up the schedule for the season, beginning Jan. 10, which will be published this week. Saturday games will be played at 2 p. m. unless otherwise arranged by the two teams that are scheduled to play.

Pronunciation of "Viking."
"Viking" is a Norse word, the English form of which is "wicking." It ought not to be pronounced as "viking" any more than the French words half and gaillard. The Norse adjective "veik" means "weak" in English. The vikings were anything but weak. In fact, weakness barred one from ever being accepted as a member of the dare-devil bands of vikings. The very idea of weakness is therefore inadmissible in connection with the heroic word viking.

Blowing Cork Out of Bottle.
Place in the neck of a wide-mouthed bottle a cork considerably too small for it and try to blow it in the bottle. Instead of going in it will generally fly out. The reason is that the blowing compresses the air in the bottle and this, recoiling like a spring, drives the cork out. To succeed, the expert must be tried with bottle and cork perfectly dry, so that one will not stick to the other.—Exchange.

Dohds, and \$8,500 was paid into the treasury from other sources, bringing the total of cash which flowed through the windows at the treasurer's office during the month up to more than \$402,000.00.

Neglected Children; Parents Jailed
Joseph Ritsch and his wife, Armonia Ritsch, 1413 Union street, were sent to jail for 10 days by Judge Gilliland following their conviction in probate court Tuesday of a charge of neglecting their two children, Myrtle, 14 and Albert, 8, who were brought into court Monday on a complaint of "Parent of Neglected Children."

The hearing disclosed that the children had not been sent to school and that they were badly neglected by the parents. It was admitted that the boy "chewed" tobacco with the consent of the parents and at times it was furnished to him by them. A glance at the children was sufficient proof that they had not been properly cared for as their clothes presented a filthy appearance.

Judge Gilliland later suspended 30 days of the sentence on the promise of the parents to take better care of their children.

Refused New Trial
Judge Will P. Stephenson, of West Union, has refused a new trial which was sought by the plaintiff in the case of the Nicola Building company, of Cincinnati, against The City of Portsmouth, leaving judgment in favor of the city on the main cause of action as rendered by the trial court who at the same time awarded the plaintiff judgment for approximately \$1,200 on another cause of action. The suit was brought by the plaintiff company on a claim for damages and extras amounting to nearly \$30,000 in connection with its contract in building the city water works.

Judge Thomas Affirmed
The mandate of the Supreme court in the case of R. W. Allard against The Board of Education of Madison township, reversing Court of Appeals and affirming Judge Thomas, decision has been received by Clerk of Courts Edward Cunningham.

The Supreme Court decision perpetually enjoins the board from providing with the sale of any and all bonds to provide funds for the purpose of building a centralized school and providing vehicles to transport scholars. A bond issue of approximately \$40,000 was authorized for the purpose of the township at the election nearly two years ago and the sale of the bonds was stopped by the injunction suit.

Furthermore, the wife says that Harrison was found guilty of failing to support his family and was ordered to pay \$20 a week for their support by the Clark county juvenile court.

She seeks the divorce and alimony with custody of her children. They were married Aug. 10, 1908. The wife is represented by Attorneys McCormick, Lucas, Nivius and Carpenter, of Springfield.

Disarmament May Be Basis

(Continued from Page One)

The truth is the ideals which actuated the Wilson administration in the "peace to peace" era have not been surrendered but lessons taught by the war have been taken to heart. Men like Josephus Daniels, who came into the navy department in 1913, believing that war was impossible and that America's entrance into the European conflict when it did arise could be avoided, are not so trifling as before. With hatred, suspicion, and jealousy alive in the world and with America having refused to enter the League of Nations, the necessity of being prepared for further international disturbances is regarded as essential. In other words, the Wilson administration is just as realistic as it ever was of other nations but it sees the duty of the present hour as one of caution and preparedness. Being changes in policy have made only when all other nations have signed on the dotted line a pledge to stop building ships or preparing for war.

Will Fight Plan To Cut U. S. Navy
Every effort to cut down the size of the navy will be resisted by the present administration until an international agreement is reached with other nations. All resolutions looking toward the limiting of armaments of Japan and England alone will be rejected. For the disposition of the navy department here is to look upon the Doherty proposal as nothing more than the beginning of a political alliance with Japan and England. The Wilson administration is naturally gratified that Senator Borah has seen the necessity of an international agreement of some kind and has given up the position he took during the campaign that he didn't want any political alliance or agreement with any nation, but so long as the proposal contemplates only three nations and does not include all the powers of the globe, it will not have the sanction of the present administration.

No Conference Until After March 4
Moreover, to call an international conference now would mean a meeting not earlier than the last of February or the first of March, when the Harding administration would be coming into power. So it is practically certain that no more toward the assumption of responsibility for such a conference will be made until after March 4.

Meanwhile it cannot be taken for granted that Congress will cut down the size of the American navy as it

armaments everywhere Senator Harding doesn't want a move that might take the cards out of his hands when he sits down with the representatives of other nations to discuss the reduction of armaments everywhere. Senator Harding is deeply interested in the provisions of the naval act of 1916 under which the program was launched. He need not ask Congress for authority. He need not go to Senators Borah and Johnson or members of any other group in the Senate for the law is already on the statute books and the appropriations for the expense of such an international conference is already made. Mr. Wilson didn't call the conference because he believed the League of Nations would tackle the question. It has. But America being an outsider could not participate officially in the discussions of armament. Whole Question May Be Open Anew
It is not impossible that the European nations will send to Washington the same men who have been members of the League of Nations committee on armaments. Through the question of disarmament the whole subject of international co-operation may be opened anew and the way paved for an agreement with the rest of the nations of the world to prevent war and preserve peace. Disarmament has come concretely before the peoples of the world, including America, through the enormous tax programs involved. The Wilson administration by sticking to its naval building program has emphasized the necessity of international agreement and some kind of a league of nations. That's why any effective move toward disarmament will have the approval of Democrats in Congress even after the Wilson administration passes out of power.

Harding Plans Deeper Interest

(Continued from Page One)

trip. He has given the matter serious thought for years. The Panama trip merely confirmed his conviction that diplomatically, as well as commercially, the interests of the United States lie at this time strongly to the southward. The glamor of the European courts, has attracted most of the best American diplomats of the past. Mr. Harding feels that real constructive work in the interest of the United States lies in the big business of the world. He is particularly keen on the assumption of responsibility for such a conference will be made until after March 4.

As usual it is expected that the resolutions for this are many and obvious. For the last six or seven years, and

even longer, our relations with the other Americas have all been for gotten. The world war, which began nearly seven years ago, naturally focused all interest on Europe and there it has remained. Europe, in the next administration will be the great problem, but it would be a problem which involves immediate consideration by the President himself, by Congress and by the cabinet. The individual ambassador in Europe during the four years will have little opportunity for individual effort, his course naturally will be directed step by step from Washington. In a sense he will be under a system of wireless control.

Wide Field of Work
In South America the ambassadors of the next four years will find a wide field of work in which his personality and his tact and naturally his diplomacy will count for much. The United States always has posed as the "big brother" of the western hemisphere, but there is no denying the fact that some of our sister republics have been treated more like step children. If it had not been for what might be termed the extra official activities of the United States representatives in the Pan-American Union, more than one of the nations to the southward might have been regarded. These neighbor nations always have been found ready to do their part in any sort of arrangement with the United States but this country has been found often more than neglectful. At the beginning of his administration, President Wilson spoke of forming the Americas into a sort of League of Nations for disposing of matters affecting the Western Hemisphere, but the world war upset this work as it upset all other affairs of the United States. Secretary of State Colby is making a notable if somewhat belated, tour of South America, and while his trip may be to be wholly related to the Wilson administration, Mr. Colby is personally a man of such tact and pleasing personality, he is certain to leave behind a favorable impression which will pave the way for the efforts to be made by Senator Harding when he assumes the office of President.

Wants South Americans in His League
There has been considerable talk recently that the League of Nations might win away to Europe the loyalty of the South American countries. South American officials feel toward the United States. It must not be forgotten that the South American countries declared war on Germany only when the United States stepped in. They waited for the lead of the big sister and protector to the north. These same countries became members of the League of Nations through a ratification of the treaty of Versailles. In the belief that President Wilson and the United States Senate eventually would reach

**OHIO COAL MEN ATTEND
FREIGHT RATE HEARING**
COLUMBUS, O., January 4.—Ohio coal men and railroad representatives today attended a hearing held by the state public utilities commission on an application by the railroads for permission to further raise freight rates on coal from the mines to Ohio points.

The commission recently granted the railroads a 14 percent increase of freight rates on coal. The railroads wanted a 10 percent increase based upon differential rates, but the commission refused this on the ground that it would result in a 18 percent increase in rates here in Ohio. The railroads are now asking that the increase be allowed on differential rates.

In the symbolism of animals, the cat typifies frugality and provision; the bear, ill temper and uncleanliness; the bull, straightforwardness; the bulldog, pertinacity; the butterfly, sportiveness and living in pleasure; the dove, innocence and harmlessness; the fox, cunning; the grasshopper, old age; the mole, obstinacy; the owl, wisdom; the peacock, pride; the swan, grace.

Safety Pins Long in Use.
Safety pins can be traced back to the fifteenth century B. C., when pins were made of bone and bent over, shaped like the modern safety pins. Many of them have been found in graves of that period. Since then the safety pin has passed through many changes and been made of various metals. An average of 1,000,000 gross of safety pins are now manufactured yearly.

Arbitrage.
This is a term applied to transactions taking advantage of difference in price in different markets for the same articles. At the same time that the trader buys in the cheaper market he sells in the dearer. The margin between the two prices must be more than the cost of exchange in order to show a profit. Arbitrage transactions are usually in bullion or coin, in a and exchanges of stocks and bonds.

Beliefs Connected With Arch.
The arch, one of the most beautiful of architectural achievements, was often associated with superstition. In India, in China, in New Zealand, to crawl under a brier grown down to the shape of an arch is considered a sure cure for rheumatism, boils, whooping cough, or whatever ails you. A sick child is passed under such an arch, in Rome, and in New Guinea, passing under an arch is an initiation process observed with much ceremony.

Invite Governors To The Inaugural

WASHINGTON, Jan. 4.—Invitations were sent to every state governor today by the Washington committee arranging for the inauguration of President-elect Harding, urging the state executives to attend the inaugural ceremonies accompanied by their staffs.

Governor-elect Davis, of Ohio, was said by the committee to have indicated his intention of coming to Washington with his staff to witness the elevation to the presidency of his fellow Ohioan.

Some of the defendants are charged with making profits of as high as \$7.50 a ton.

ROADS AWAIT FINAL AUDIT
WASHINGTON, D. C., January 4.—The railroads of the country must await a final audit by the interstate commerce commission before receiving any portion of the \$100,000,000 appropriated by congress as a guaranty for operating expenses for the six months after return to private control. Chief Justice McCreary, of the District of Columbia supreme court, ruled today.

Active and Teaching at Eighty

Porcupine No Mean Foe.
Dogs have to be well used to the work of hunting porcupines or they have no chance. A porcupine will stop suddenly in full flight and as it were, instantaneously reverse engines, and come charging full back. The best dog I ever had, a bull terrier, was killed by this trick. He was absolutely without fear and simply threw himself upon the advancing avalanche of spikes, and was in consequence speared right through the heart. I can assure you hunting porcupines is not at all a sport to be despised.—Exchange.

Wireless Waves Sent by Coast Lines
It has been suspected for some time that electric waves are refracted by the shore lines of large bodies of water. Recent observations bear out the theory and seem to prove that the amount of refraction varies with the length of the wave and the angle at which it crosses the shore. This is to be classed as one of the late discoveries, as it was not generally known during the war.

Strong Resemblance.
"Contentment," remarked Shimbone, "am a mighty fine thing; do only trouble 'bout it is it's kin' o' hard to distinguish from the plain business."—Boston Transcript.

What Is an Atheist?
Gladstone's definition of the term was "By atheist, I understand a man who not only holds off, like the skeptic, from the affirmative, but who drives himself, or is driven, to the negative assertion in regard to the whole unseen or to the existence of God."

SUSPECTS HELD FOR MURDER AND HOLDUP

CLEVELAND, O., January 4.—Police authorities were not so certain today that the slayers of Wilfred C. Sly and George K. Fanner, murdered on Friday by bandits, who escaped with a \$4,200 pay roll, had been captured. Inspector Sterling, of the detective bureau, admitted this morning that he lacked identification that would warrant charging three men held as suspects with murder. He said, however, that at least one witness had claimed to recognize one prisoner as "the man who did the shooting."

NEW YEAR RESOLUTIONS

New Year is the time for good resolutions. Among others make these:

- (1) I will open a savings account immediately.
- (2) I will take that money out of the bureau drawer and put it in the Bank where it will be safer and draw interest.
- (3) For one whole year I will save at least a tenth part of all the money I get.

As happiness makers these resolutions are hard to beat.

Rail Labor Board Refers N. & W. Controversy With Men Back To Officials Of Road And Union

CHICAGO, Jan. 4.—A half day's discussion of cases in dispute between employees and officials of the Norfolk & Western Railroad before the U. S. railway labor board resulted late yesterday in the withdrawing of two petitions in the suggestion of the board and attempts to settle the points in direct conference between the contesting parties.

Arguments in three cases were completed. One involved the changing of the home terminal of the Columbus-Portsmouth, Ohio, division from the former to the latter place; another asked for reclassification of mine run service, rating it under local instead of through freight rates, and the third involved branch line rates of pay.

The entire afternoon was spent in arguments over the pay due trainmen called for duty and subsequently not used. The point of controversy centered round what constituted actual service. Present rules provide one-fourth day's pay when men are called and not used and full day's pay when they actually begin duty, but are later released. The board suggested that a conference between Val Fitzpatrick, vice president of the Brotherhood of Railway Trainmen, and William J. Jenks, general manager of the road, with headquarters at Roanoke, Va., defend the order as merely a "paper change," instituted to avoid payment of overtime for a longer lay over at Portsmouth.

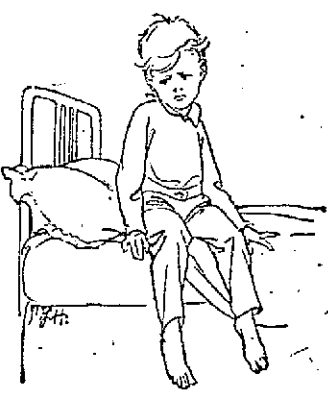

Dr. Charles P. Neil, representing the Norfolk & Western, declared there was no justifiable reason for making a new classification.

According to information given out at division headquarters at East Portsmouth last night the home terminal for the Columbus-subdivision men was changed from Columbus to Portsmouth about a year ago.

It was made in connection with the operation of the home terminal rule of the trainmen engineers, and firemen's schedules, which permitted the railroads to establish the home terminal to be operative under the rule. Under it the men are paid for the long lay over above 16 hours at the terminal other than the home terminal. Under this rule the Columbus-subdivision men are not paid in connection with the lay over at Portsmouth.

Val Fitzpatrick, vice president of the Brotherhood of Railway Trainmen representing the employees, said the change was unfair as the train crews under their homes in Columbus where many owned property, and if the change stands they will have to sell their property and move to Portsmouth.

One person was arrested for assault and another two. The Mayor in 1920 was Earl C. Horton. The number in 1919 could have been made much larger had the same rules been followed.

Plan War On Contemtpuous Treatment Of Ministers

WASHINGTON, D. C., January 4.—The public morals board of the Methodist Episcopal church, announced today that it would inaugurate a campaign to "stop the contemptuous treatment of the Protestant ministry by some cartoonists, writers and actors."

"On the stage and in motion pictures," the board's announcement said, "the Protestant minister is seldom represented except as an effeminate fool. The members of the Protestant churches are exhorted to be liberal, to take humor as humor and be slow to wrath. But the members of the Roman Catholic church do not tolerate such treatment of their priesthood, which is always represented on the stage and elsewhere in a most favorable way, and whose religion is treated with consideration. The Catholics are to be commended. The time has come also when Protestants should not tolerate any other than courteous treatment of their religion and ministry."

The board added that the matter was

being called to the attention of ministers of all denominations and their congregations with a request that "any violations of ordinary courtesy" be reported to the board, which would make them public.

COUGHED SO HARD HE WAS READY TO DIE

But he recovered quickly and gained 9 lbs. in 5 weeks.

"Last December I caught a heavy cold, which left me with a deep-seated cough. I coughed so hard it would start the blood. I thought I was a goner until I tried Mils Emulsion. I used 9 bottles altogether. My cough is gone, and I have gained nine pounds in five weeks. If anyone doubts it, just such gains in weight it must be worth your trying, at least. A trial costs nothing. Mils Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and purges. It promotes appetite and quickly purges the digestive organs in shape to assimilate food. As a builder of flesh and strength, Mils Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in restoring and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved. It produces remarkable results in colds, coughs and bronchial asthma. This is the only solid emulsion made, and so palatable that it is eaten with as much gusto as ice cream. Truly wonderful for weak, sickly children. No matter how severe your case, you are urged to try Mils Emulsion under this guarantee—Take six bottles home without cost. If you are not satisfied, and if not satisfied with the results, your money will be promptly refunded. Price 75c and \$1.50 per bottle. The Mils Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere."

Soldiers Raid Irish Convent

DUBLIN, January 4.—Soldiers raided the convent of Carmelite Nuns at a suburb of Dublin in search of letters and documents.

MANCHESTER, ENGL., January 4.—A large warehouse here was set afire by unknown persons.

WATERFORD, IRELAND, January 4.—A Catholic curate of Callan has been sentenced to two years at hard labor by a court martial for possessing seditious literature and documents.

Old Myth About Bells

There is a peevish myth that silver gives a sweet tone to bells. According to the bell founders, a silver bell would give about the same tone as one of wood. The origin of the myth, they say, is quaintly mischievous. For the want of transportation, it was the custom in more ancient times for bell casters to work in churchyards, where they erected temporary foundries. The parishioners would crowd about, and to them the founders would beg for more and more silver to give the bells a sweeter ring. The silver later found its way into tavern tills, not into the bells.

Term "Four Hundred."

This term was originally applied by a well known society man of New York, John McAllister, to the wealthiest residents of that city. For a ball given by a millionaire in New York city, McAllister was in charge of the invitation list. When questioned by a reporter, he stated that only 400 cards were to be sent out, adding "After all, there are only 400 persons in New York who count in a social way." The reporter was able afterward to obtain the list of guests and had their names printed as New York's Four Hundred.

PARLOR BEDROOM and BATH

At the Exhibit Theatre for two hilarious days and nights, closing, "Parlor, Bedroom and Bath," the biggest story of a young wife who wanted a wild man for a husband—and got more than she bargained for—Don't Miss It.

"Parlor, Bedroom and Bath," the screen farce which sets forth the tribulations and misadventures of a model husband who won his wife under a false promise of devilishness, is scheduled for its second local showing tonight at the Exhibit.

For one of the longest and most hilarious seasons a comedy has ever known, "Parlor, Bedroom and Bath," written by C. W. Bell and Mark Swann, and produced in the theatre by A. B. Woods, presented New York, and those who have had the opportunity of seeing pre-release showings of the production in pictures, with an all-star cast, assert that the play has gained rather than lost in hilarity in the translation to the silver screen.

The situation—or at least the central situation, for there are any number of them—deals with Reggie Irving who for many years had sought to win Angeline. This young woman wanted a man just the opposite of what her own name implied. She wanted a wild one, and since Reggie had no idea of how to be wild, had no inclinations toward sowing even a little patch of the untamed oats, he was forced to seek outside aid. He went to Polly Hathaway, society reporter on the scandal sheet, and asked her to use dark polish on his reputation.

Ruth Stonehouse enacts the honey resourceful girl reporter.

HALF A CHANCE
with Mahlon Hamilton
and Lillian Rich

From the novel by
Frederic S. Isham

Closing Tonight, the Eastland Theatre will offer The Most Sensational, Stupendous and Human Drama the Screen Has Ever Known—"Half a Chance" with Mahlon Hamilton and Star Cast—Also Harold Lloyd, Bebe Daniels and Snub Pollard in "Bees in His Bonnet," A Laughing Treat.

A play men will remember—a romance to thrill women. That is what you will see at the Eastland Theatre tonight, last time sure. In the initial showing of Frederic S. Isham's great novel "Half a Chance" starring Mahlon Hamilton and Lillian Rich.

With our unqualified seal of approval we wish to personally commend the stupendous drama, "Half a Chance," for your attention. It features Mahlon Hamilton and Lillian Rich. For sheer action, tremendous heart appeal and thrilling scenes, no production—not even "The Spoilers" or "The Barrier" has ever equaled "Half a Chance." It sweeps with the surge of Niagara from the prize ring to a steamer's stokehole—to a sensational shipwreck and wonder scenes on a desert island. Back it flashes to high society and underworld life. It mirrors the soul of a man's man—a woman's hero. Buffeted by the law, lashed by fate, shipwrecked, with everything against him except a faithful dog, an accident turned his half a chance into a whole one, and he took it.

Each climax is like a bolt of lightning, vivid and surprising. Each clash of mind or body is a tense battle, packed with electrifying interest. And the romance is as alluring as a legend, and old rose. More entertainment in deed—a gigantic production—one to lift and exalt you. See it at the Eastland Theatre. It will keep you talking about it for months.

And don't forget your old friend Harold Lloyd will also be on the program in one of his best comedies, supported by Bebe Daniels and Snub Pollard. The Eastland Theatre has arranged a beautiful musical theme as a prelude to the feature.

ALICE BRADY

Pretty Alice Brady Returns to the Strand Tonight in a Play That Gives Her Wonderful Opportunity. "The Back." We Urge You not to Miss This Play. Also Good Pollard Comedy.

Jack Freeman, a man of evil reputation, breaks up two families and starts a third by his intrigue with Effie McKinnis. Donald McKinnis goes to Europe and the door is for her wife commits suicide, and Freeman's wife vows vengeance on her unfaithful husband. The people started by the madness of the intrigue to their own madness, door are Tom Gordon and his wife.

It is a powerful picture and will make a great success with audiences everywhere. The selection of Alice Brady as star for this film is amply justified; she carries through a continually exciting part with strength and without exaggeration. Arthur Hills and June Elledge are good as Tom Gordon and Louise Freeman. Also a dandy comedy.

"A Little Bird Told Me"

The common expression, "A little bird told me," means that information respecting a matter has come to a person in some secret and perhaps mysterious manner. The saying is not a literal quotation, but is borrowed from the medieval verse of the "fifth chapter" of Ecclesiastes. The verse opens with a warning not to curse those in power, and even in thought or in the heart; for a bird of the air shall carry the voice, and that which hath wings shall tell the matter.

Find Gold in Trees. Tests have been made by taking the wood of certain trees, burning to ashes and assaying the ashes. It has been found that the ashes of almost all trees showed traces of gold. Primitive Pins. The earliest kind of pins, or of sticks serving the same purpose as pins, were probably thorns or the small bones of fish and other animals. Among the remains found on the sites of prehistoric lake-dwellings of Europe there are a number of bone pins, some of rude and others of an elegant form. Most Eggs in New Moon Period. Experiments have shown that more eggs will hatch if the hen is set when the moon is new, or very close to that period, and that the young chicks hatched at that time will be stronger and more vigorous and will grow more rapidly. On the other hand, chicks hatched when there is no moon are often more weakly and do not make such strong and vigorous fowls, nor are they such good egg-layers.

More Portsmouth Testimony. Mrs. C. A. Durr, 23 Jefferson St. says: "My little boy, having no trouble, my back pained severely and I had a dull, nagging ache in it. When I bent over it seemed as though my back would break. At times I was dizzy. I saw double. My head was throbbing and after I had used one box of the Doan's Kidney Pills, I was cured."

Most Eggs in New Moon Period. Experiments have shown that more eggs will hatch if the hen is set when the moon is new, or very close to that period, and that the young chicks hatched at that time will be stronger and more vigorous and will grow more rapidly. On the other hand, chicks hatched when there is no moon are often more weakly and do not make such strong and vigorous fowls, nor are they such good egg-layers.

When I bent over it seemed as though my back would break. At times I was dizzy. I saw double. My head was throbbing and after I had used one box of the Doan's Kidney Pills, I was cured."

NEWEST PHOTO OF ENGLAND'S QUEEN

Queen Mary.

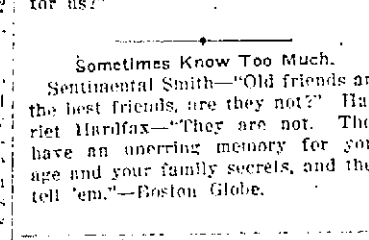

This is said to be the most recent picture, taken for publication, of Queen Mary of England. Without flattery, tracing threats to blow up Buckingham palace and injure the king, these are anxious days for Queen Mary. The simplicity of the coat and hat is typical of the queen.

No Return on Investment. "Gentlemen," said the speaker, "I can't sit still without saying a word, and so I rise. I will speak what lies close to my heart. Everybody debates the future of the country. Buildings are erected for posterity. Everything that is done, built, planted, is simply for the benefit of posterity. Now what in heaven's name has posterity done for us?"

LESS MEAT MEANS BETTER HEALTH

Too much meat leads the blood with excess uric acid, weakens the kidneys and causes backache, urinary troubles, rheumatic pains and nervous troubles. If your kidneys seem weak, don't wait for severe troubles to seize you; but rather do it at once, use Doan's Kidney Pills. Thousands recommended them for just such trouble. Ask your neighbor!

Various Forms of Bread.

While most countries bake their breads, there are some where boiled bread is the common form. Two of these countries are China and Africa. The daily bread of a large portion of the people of Africa is made from cassava flour. The cassava roots are soaked in water, left to dry and then pounded into flour by means of crude wooden or stone mortars and pestles. The cassava flour is mixed with water till a sticky dough is formed.

Acetic Ether. Acetic ether is more generally known as acetic ester. It is an ester of acetic acid, especially the ethylester or ethyl acetate, a colorless liquid of agreeable odor. The aroma of vinegar is partly due to its presence. Acetic ester is obtained by the action of metallic sodium on the ester formed by the union of acetic acid and ordinary alcohol. Acetic acid is the sour principle of vinegar, an acid composed chemically of carbon, hydrogen and oxygen.

Teaches Birds to Sing. Taking advantage of the imitative faculty of song birds, a simple mechanism has now been contrived that actually teaches canaries and other pet warblers how to increase their singing repertoire, says Popular Mechanics Magazine. It is a partly water-filled cylindrical metal tank, in which a slightly smaller inverted tank slides up and down, provides enough air pressure for blowing a series of whistles of different tone.

His Sentence. "A teacher wrote a list of spelling words on the board, asking the pupils to put them into sentences to illustrate their meaning. One word was 'goblet,' and a boy wrote this sentence: 'If I had a piece of cake, I would goblet!'"

Origin of Manitoba. The name Manitoba sprang from the union of two Indian words, Manito (the Great Spirit), and Waba (the "narrows" of the lake). This strait was a sacred place to the Crees and Saulters, who called them "Manito-Waba," or the "Great Spirit's Narrows."

in the Selby Bowling League last night the Messengers sent the Directors a little further down the percentage ladder when they took three straight games from the P. E. Selby broke into the lineup of the Directors and he proved that as soon as he gets a little more strength he will be better than ever. Uncle Jed Rardin had the time of his life and while his scores weren't of the exalted nature he kept improving the longer he rolled. Homer Selby was off color as was Adam Burkel. Altman also improved as the evening progressed. C. J. Hauck showed by his one game that he is going to be a bear this half. The Messengers all rolled very good games and were well satisfied with their evening's work. Prosch with 526 had high total for the evening while Moore with 187 had high individual score for a single game. The scores:

In the First Evangelical-Sunday school gym Monday night, the Bigelow Specials won from the Evangelical Intermediates by a score of 26 to 25. The game was fast and as exciting as the close score indicates. Had the Evangelicals played the first half of the contest like they did the second part of the contest they would have won hands down. The Intermediates, in the Specials to one field goal in the first half, but were unable to overcome the lead the Specials piled up in the first half.

The Intermediates were playing their first game of the season while the Specials have been organized for sometime.

The backers of the Intermediates were more than pleased with the showing made by the losers. E. Gordley, center for the Specials, was the star at shooting baskets, getting 5 to his credit in the first half. Flowers, center for the losers, matched him, getting five also.

Paul Bauer, according to Secretary Frank J. Baker, has forced Earl Chase out of the leadership of bowlers in the Masonic league and is now leading the organization with the fine average of 175. For the past several weeks, Mr. Bauer has been going strong and coming fast and says he is going to stay there or break an arm. Mr. Chase expects to whip up a trifling affair that he is not at all perturbed over the fact that Brother Bauer has dislodged him. The average for the first 15 weeks follow:	York.....32	4960	154

NEW YORK, Jan. 4.—Battling Nelson, former lightweight boxing champion of the world, was granted a referee's license by the New York State boxing commission here today. Nelson's career as a fighter ended several years ago.

PITTSBURGH, Pa., Jan. 4—The formation of a boxing club for Pittsburgh boxing was announced today by J. E. Roudley, well known match maker. The club will operate under the name of the Birmingham Athletic Club and will stage its first show at Exposition hall next Monday. The main bout for the initial show will bring together Bob Fitzsimmons, Jr., and Jack Burke, former national amateur title holder in the light heavy weight division.
